

The \$10,000 Moving Image Art Award is open to artists working with digital moving images. The category will accept entries of art-based film, video, and animation.

Gosford Regional Gallery displays moving image artworks on various screens:

- **Portable** 42-55-inch HD monitors, aspect ratio 16:9
- **Frieze wall**, with pixel dimensions 1152 x 288, aspect ratio 4:1. (see diagram below).
- **Immersive curved wall**, with pixel dimensions of 3800 X 1596, has an aspect ratio 5:2 (50:21, to be precise). (see diagram below)

See the links below for preferred artwork file formats and preparation. Speakers available with all formats.

Brightsign [Video Formats & Codecs - Advanced](#)

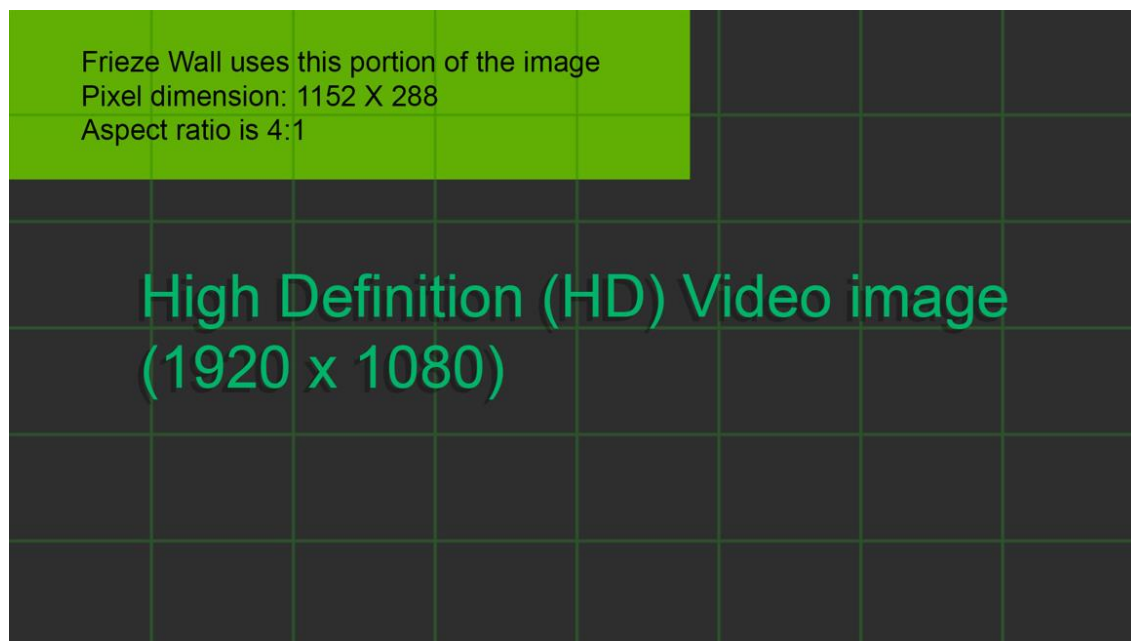

The specs for the **frieze wall** are:

**Aspect ratio** of built screen is **4:1**

The image signal sent to the screen is **High Definition** (HD; 1920 x 1080), with the crucial proviso being that *only a portion of that image is used!*

The **Pixel dimensions of the used portion: 1152 X 288.**

Concealed sound bar speaker available for audio.

The specs for the **immersive curved wall** are:

**Aspect ratio** of the immersive curved screen is approximately **5:2** (50:21, to be precise)

The image signal sent to the screen is either **Ultra High Definition (UHD; 3840 X 2160)** or **4k (4096 x 2160)**, with the crucial proviso in either case being that *only a portion of that image is used!*

The **Pixel dimensions of the used portion: 3800 x 1596**. Immersive wall has AV system with left and right sound speakers available.
